CITY UTILITY HOOKUP POLICY

Iron Horse Subdivision Development. Discussion about responsibility to install a meter and setter box on lot 13. Mayor Wise and Councilor Demaris conducted research and found the contractor of the subdivision was supposed to install all lines and hookups per ordinance. However, the documents reviewed showed the mainline was paid for; but no service line or setter box going to Lot 13. City employees could not locate a service line or setter box going off mainline to Lot 13. This is a one-time situation. Councilor Briscoe made some suggestions regarding cost and timeframe of the hookup. Councilor Smith stated his concerns and setting precedence. Council further discussed the burden of proof. This will be discussed further as old business at the next regular Council Meeting.
